

LONG BAY VILLAGE CENTRE

RL System: Ultratherm MSR
Project Size: 2,700m²
Location: Auckland
Project Date: 2019

Architect: Architectus
Contractor: Naylor Love
Installer: Watertight Construction

PROJECT DESCRIPTION

Nestled in the East Coast Bays, Long Bay Village is a lively community, conveniently situated just north of Auckland City. Offering an array of amenities including shops, bars, restaurants, a supermarket, and a fitness centre, residents have everything they need at their fingertips. Long Bay Beach, a picturesque spot ideal for leisurely strolls and safe swimming, serves as a highlight for both locals and visitors. With its vibrant atmosphere and convenient offerings, Long Bay Village stands as a prime destination for businesses, making it the preferred choice for discerning professionals.

The Village's roof system combines RoofLogic Ultratherm MSR and Ultratherm Xtreme. The Derbigum, a two-layer torch-on membrane, is intricately designed to form eye-catching diamond-shaped gutters, enhancing the sophistication of the Metal profiled roofs detailed with TopDeck S.
