

WAITANGI MUSEUM

TE KŌNGAHU

RL System: Ultratherm Xtreme (Derbigum)
Project Size: 1,000 m²
Location: Waitangi Treaty Grounds
Project Date: 2015

Architect: HB Architecture
Installer: SWP Commercial

PROJECT DESCRIPTION

The new Museum of Waitangi/Te Kōngahu is a building of national significance and the latest addition to the built environment within the treaty Grounds at Waitangi. The building is designed to house some of the nations most treasured taonga in a purpose built museum environment.

The RoofLogic Ultratherm Xtreme system was specified for the museum roof. The system needed to be highly durable and weathertight and to also contribute to a stable internal environment.

SPECIFIED ROOFLOGIC SYSTEM

RoofLogic's Ultratherm Xtreme (Derbigum) system:-

- RL Base Deck (structural steel base deck.)
- RL Vapour Control Layer.
- RL PIR Board (80 mm.)
- RL Roof Board HD.
- Derbigum Membrane.
