

HEKE RUA

ARCHIVES NEW ZEALAND

RL System: Ultratherm Xtreme (FiberTite)
Project Size: 2,400 m²
Location: Wellington
Project Date: 2024

Architect: Warren & Mahoney
Contractor: LT McGuinness
Installer: SWP Commercial

PROJECT DESCRIPTION

The Heke Rua Archives building is a state-of-the-art archival facility, designed to protect Aotearoa's documented heritage with the highest levels of technical performance and resilience. It is located in the heart of New Zealand's parliamentary precinct. It will house the country's archival collections, including government records, publications, books, manuscripts, artwork, scientific data, images and films. The building is targeting a 5 Green Star rating through design, and the use of Ultratherm Xtreme with Stonewool as a roofing solution plays an important role.

SPECIFIED ROOFLOGIC SYSTEM

RoofLogic's Ultratherm Xtreme (FiberTite) system:-

- RL BaseDeck
- RL Vapour Control Layer
- RL Stonewool Insulation
- RL RoofBoard
- FiberTite Membrane
