

# RL VENTED COMB FILLER

## For MSR Roofing Systems

Prevents entry of birds and nesting insects

RL Vented Comb Filler

### DESCRIPTION

The RL Vented Comb Filler is designed with flexible fingers that adapt to fill the gaps typically found when utilising profiled tiles or steel roof cladding. Its ingenious design effectively blocks the entry of birds and larger insects underneath the metal sheeting, providing a reliable barrier against unwanted pests. By seamlessly closing off these gaps, the RL Vented Comb Filler ensures enhanced protection and peace of mind for your roofing system.

### KEY FEATURES

The RL Vented Comb Filler provides effective protection against birds and nesting insects. The RL Vented Comb filler offers a more cost-effective solution compared to using purpose-made profiled fillers.

The RL Vented Comb Filler is designed in convenient 1-meter lengths, ensuring ease of installation. With its straightforward installation process, the fillers can quickly and efficiently be secured in place, providing a seamless barrier that prevents the entry of birds and nesting insects.

### SPECIFICATIONS

Colour	Black
Length	1000mm
Vent Size	4mm grille
Packing	Sold per Lm
Material	Polypropylene
Manufacturing process	Injection Moulded
